

# Giesecke & Devrient's Zeus

## *Compact Currency Discriminator*

### It Pays to Invest in Quality

G&D is the world's leading provider of premium products and system solutions for banknote processing: top quality for superior durability and longevity. That translates into a higher return on investment and reliable investment protection for our customers. The Zeus is a remarkably compact 1+1 pocket currency discriminator that smoothly integrates into established workflows

### Highly Versatile and Easy to Operate

The Zeus is the perfect addition to any cash processing operation. It is highly versatile, easy and convenient to operate, and supports an unparalleled range of applications. It can be readily configured for specific user requirements and adapted to existing network infrastructure.

The BPS® C1 is an ideal choice for:

- Financial Institutions
- Cash Centers
- Gaming Environments
- Exchange Offices
- Public Transit Authorities
- Retail Operations

# The All-Rounder at a Glance

The Zeus is compact, robust, and powerful. It combines ease of use with a small footprint, quiet operation and high efficiency.

## Ergonomic Design — Easy and Intuitive Use

- Lowered feed tray to minimize reach requirements
- User-friendly color LCD
- Simple selection of operating modes such as "count" and "sort" using ergonomic buttons
- Rapid system start up

## Multifunctional and Reliable

The Zeus can support any step in the cash handling process at financial institutions — from teller windows to back offices.

- Teller Window:
  - Small footprint ideal for teller areas
  - Parallel operation by two tellers possible
  - Reliable authentication eases the burden on staff
  - Quiet operation allows teller to conduct customer transactions
- Back Office:
  - Verify ATM balancing, vault deposits, night deposits and audit functions.

## High-Powered Support for Cash Centers

- Fast, reliable deposit verification
- Optimum adaptation to cash center processes
- Interoperable with cash management software
- Powerful and robust design for high-volume applications
