

# Glory® GFB-830

Currency Counter w/Counterfeit Detection

» **Power and practicality on your desk top** Constructed with tank tough components throughout, this machine will out-perform — and out-last — any other counter in its class. The GFB-830 provides many useful features, including the most precise counterfeit detection on the market. It's handsome, space-saving design is remarkably easy to use. Fast, effortless currency counting begins the instant it's turned on.

## Specifications

Modes: Counts, Adds and Batches

4-Speed Count Selection (Auto/Manual):  
500, 1,000, 1,500 and 1,800 notes/min

Counterfeit Detection:  
800 — N/A  
820 — Dual magnetic  
830 — Dual magnetic, dual ultra-violet

Feed Method: Roller friction type

Hopper Capacity: 300 notes

Stacker Capacity: 200 notes

Countable Note Size: 2" x 3.9" to 3.9" x 7.3"

Power Supply: 115VAC, ±10%, 60 Hz

Dimensions: 10.8"(W) x 9.1"(D) x 7.7"(H)

Weight: 12.1 lbs

## GFB-830

Small enough to go anywhere and fast enough for any size job, the GFB-830 counts from 500 to 1,800 notes per minute. Operators choose either batch total counts with auto (preset batch totals) or manual (batches from 1 to 999). With an ample receiving hopper that holds up to 300 notes, and an input stacker capacity of up to 200 notes, routine counting will be simply more accurate and take less time.

The GFB-830 uses twin magnetic ink (MG) sensors and twin ultra-violet sensors to screen all notes. Suspect notes stop the count for visual inspection and identification. The combination of MG and UV sensors deliver some of the most reliable counterfeit detection on the market.

## Outstanding Features Inside

The GFB-830 delivers high speed counting with low jamming or auto-stop occurrences. The perfectly-placed control panel features a large keypad and bright LED display for quick and easy operation. The large capacity receiving hopper and ample input stacker make feeding and retrieving notes as simple as with many full size machines.
