

Glory® WR-500/90

Coin Counting and Wrapping Machine

» Glory's vast experience in coin wrapping combined with Data Financial, Inc.'s history of successful sales has enabled the design of the remarkable WR-90 and WR-500. Rugged and reliable, these coin wrappers deliver top performance day-in and day-out. The high-speed WR-500 counts large volumes of coin and the normal speed WR-90 is versatile for any operation.

Specifications (WR-500 | WR-90)

Counting Speed:
3,000 coins/min | 2,000 coins/min

Wrapping Speed:
40 rolls/min | 25 rolls/min

Hopper Capacity:
≈ 18,000 coins | ≈ 9,000 coins

Acceptable Coins:
Max — 32 denominations
Diameter — 0.6" to 1.3"
Thickness — 0.04" to 0.14"

No. of Coins Wrapped in One Roll:
Preset for each denomination

Power Supply:
AC100-120V, 220-240V ±10%, 50/60 Hz

Dimensions:
WR-500 — 17.7"(W) x 24.9"(D) x 43.3"(H)
WR-90 — 17.7"(W) x 24.9"(D) x 40.7"(H)

Weight: ≈ 330.7 lb

Power Consumption: Less than 400W

Continuous Operation

With newly designed coin transporting and stacking units, the WR-500 and WR-90 have realized smoother performance and have drastically improved continuous operation.

Improved Operability

With utilization of a built-on LCD control panel, screen visibility and operability were improved dramatically. The processing mode and data contents may be checked quickly and easily. Furthermore, easy-to-understand illustrated operation guides provide accurate and applicable support.

Multilanguage Display

Different languages may be selected on the LCD panel, such as English, German, French, Spanish, etc.

Optional Advanced Detection Capability Against Forged Coins and Foreign Materials*

Detection against forged coins and foreign materials has been improved. Non-designated denominations or foreign material coins are automatically rejected to a dedicated box via recognition sensors.

Options

- » Extra large hopper
- » Larger paper roll stand
- » Printer
- » Escrow for wrapped coins
- » External interface
- » Recognition sensors*
